

REDEFINING YOUR EQUINE EXPERIENCE

Everything your horse
needs in ONE place.

No guesswork.
Just results

WHY PIMBURY PROFEED IS DIFFERENT

Pimbury ProFeed is the only horse feed in Australia powered by the super fibre **Almond Hulls**, a premium, highly digestible fibre that delivers real, visible results.

WHAT DOES THAT MEAN FOR YOUR HORSE?

Unlike traditional grain heavy feeds, almond hulls provide:

CALM, CONSISTENT ENERGY

Almond hulls provide a slow, steady release of energy through hindgut fermentation, supporting consistent performance without the excess excitability.

A HEALTHIER GUT, NATURALLY

Rich in fermentable fibre, ProFeed supports gut health and helps reduce risks linked to high starch feeds.

LOVED BY EVEN THE FUSSIEST EATERS

Naturally sweet and nutty, ProFeed is highly palatable for easy, consistent intake.

LOW SUGAR & STARCH BETTER FOR SENSITIVE HORSES

Formulated for horses prone to tying up, ulcers, metabolic issues, or laminitis so you can feed with confidence.

FLEXIBLE FEEDING OPTIONS

Feeds your way, feed pellets dry or soak into a soft mash for convenience and hydration.

OUR RANGE

PROFEED CONDITION

For healthy weight gain, muscle development, and coat shine without excess heat.

- ✓ Low sugar & starch
- ✓ Supports calm condition
- ✓ Promotes coat and skin health
- ✓ Ideal for horses needing coverage without excitability

For healthy weight gain, muscle development and coat shine.

PROFEED PERFORM

For competition horses needing calm, lasting energy.

- ✓ Grain free
- ✓ Ultra low starch
- ✓ Sustained stamina and recovery
- ✓ Supports topline and overall condition

Delivers performance energy without overreactive behaviour.

PROFEED STABILITY

For sensitive horses and those prone to metabolic concerns.

- ✓ Grain free
- ✓ Ultra low starch
- ✓ Supports gut comfort
- ✓ Helps maintain healthy weight
- ✓ Ideal for EMS, laminitis risk, and good doers

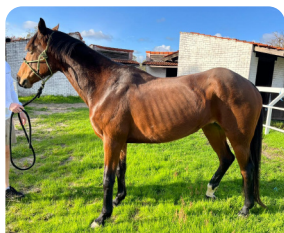

A gentle, balanced everyday feed.

WHY IT WORKS

Our formulas are:

- ✓ Built on highly digestible fibre
- ✓ Balanced for realistic feeding
- ✓ Designed to reduce reliance on multiple supplements
- ✓ Backed by equine nutrition and dental professionals

Many customers report improvements in condition, coat shine, muscle tone, and overall wellbeing within 3–4 weeks.

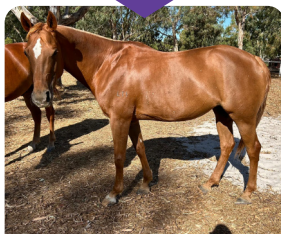

BEFORE

AFTER

QUALITY FEED. LESS REQUIRED. BETTER VALUE.

When comparing feeds, it's not about the price per bag it's about the cost per day.

Our feeds are formulated to deliver more nutrition per kilogram, meaning you feed less and each bag lasts longer.

What That Means for You

Our Feed	Typical Feeds
 Lower daily feeding rates	 Higher feeding rates
 Bags last longer (up to 20 days)	 Bags used much faster (as little as 3 days)
 Complete, balanced nutrition	 Often require additional feeds or supplements

The Difference

Many feeds require up to **TWICE** as much per day to achieve similar results

That means:

- More bags
- More cost over time
- More bulk, not necessarily more nutrition

Feed less. Get more. Spend smarter.

DEVELOPED BY EQUINE PROFESSIONALS

Pimbury ProFeed is developed by a team including:

- ✓ **A PhD Equine Nutritional Physiologist**
- ✓ **Experienced Equine Dental Technicians**
- ✓ **Long standing equine professionals working with performance and pleasure horses across Australia**

Every formulation is research driven, practical, and designed to support long term horse health.
